the liveliest interest to the mass-meeting of wheel-men which will be held at the Fifth Avenue Hall on Tuesday night. The meeting will be held to indorse the Armstrong Baggage bill, and cyclists from all over the district will be present. The

nfortunate conflagration at Boston which destroyed so many bleycles for the Pope Manufacturing Company has been generally commented That so many finished wheels should be deoyed at this time of the year would be disg to some people. The company, however, quick to see the point, and a large consignment

industry no one will for a moment deny, few persons are aware of its present extent. the Western Wheel Works last was 57,000 bicycles, and the Crescent people ect that their 1896 output will exceed that of last shipping their 1896 models by the carload from their Chicago to agents in every part of the United States. An average of five carloads been shipped to their Eastern branch, at No. Warren-st., which is a distributing point for the Eastern and Southern States. Even this quantity has been insufficient to supply the demand, and they now give out the information that on Thursday last a special train, consisting of fifteen large furniture cars, loaded with 2,8% hicycles, started from Chicago via the Lake Shore and Michigan Southern Railway, and will reach the Sixtieth-st. freight station of the New-York Centra, about the middle of this week. Sixty large two-horse trucks will be required to transport the wheels from the New-York Central yard to the headquarters of the Western Wheel Works, estimating sixty crated wheels to a truck. It is expected that the wheels will be taken from the cars Thursday morning, and the trucks when loaded will proceed to Eighth-ave, thence to Fifty-fourth-st., to Broadway, to Fifty-second-st., to Eighth-ave, to Froty-second-st., to Fourteenth-st., to Broadway, to Chambers-st., to Park Row, to Broadway, to Warren-st. Eastern and Southern States. Even this quantity

George Ruppert, son of the New-York brewer, who has ambitions to become a crack racing man, s gone South with his trainer. Ruppert tried last

The Van Cortlandt Wheelmen is one of the oldest and best-known bicycle clubs in the League of American Wheelmen. Their annual meeting was held last night, and a number of new members

climbing hills. The ankle motion is hard to adopt, but when once the knack is learned it will greatly relieve the wheelman ascending elevations. Up-turned handlebars also facilitate the art. It is also a good thing for developing the calf of the leg.

able to play a faster game. Perkins, however, when the pace was not too fast for him, showed the most science, and his placing and returning was a marvellous exhibition of the art of racquet playing. Hall made some wonderful strokes, and was much quicker in the fastest kind of fast work. This enabled him to win the finals rather easily, by taking

tournament witnessed yesterday's games, and among them were a number of visitors from Boston among them were a humber of a solution and Chicago. Both galleries above the court were filled until they could hold no more, and both the players were generously applauded. Among the visitors were C. K. G. Billings, W. S. McCrea and H. W. Wells, of the Chicago Athletic Association, who are here as a committee to arrange if possible who are nere as a committee of the state of

is quick to see the point, and a large consignment wheels was ordered to be sent from the factory Boston a few hours after the fire. Colone, Albert Pope was in this city attending the poster exit, when he was informed of the fire. He dered the loss, of course, because he had much uable information stored in the building besides bleyeles. He had probably the most valuable ary pertaining to the wheel in the world, and in his sword, which he had carried through the r, was in the building also. The Colonel thought reat deal of that sword and its old associations, he greeved more over its loss than he did proby over all the rest of the matter which was need into ashes or twisted into a useless mass.

ear to gain the C.ass A honors, but was un-ortunate in several bad falls which greatly injured s chances at Asbury Park. Ruppert will remain a mateur and compete mostly in the vicinity of e metropolis.

formation is gleaned from press reports. But one fact is significant. The National Racing Board has re-rived but few applications for sanctions this lear.

A year ago at this time the Board was flooded with applications. Most of the cycle meet promoters are gauging the question before concluding to offer gold for prizes. The Toledo meet will give \$5,000 in prizes.

L. S. Harrison, the president of the South Brooklyn Wheelmen, has sent the following letter to the secretary of the club:

nunication, notifying me of my nomination for the mee of president of the South Brooklyn Wheel-nen, and in reply will say that, although I appreate the honor conferred on me by the club, I am sulng year, win require than my business interests will chief executive than my business interests will allow me to give. The club is now in a prosperous condition, and I believe under the leadership of either of the remaining candidates it will continue to prosper."

held last night, and a number of new members was admitted. Reports showed the club was in a flourishing condition. It was decided not to begin the season's work until May 30, when Memorial Day will be observed by a club run. The following officers were elected for the ensuing year; George A. Ferguson, president; A. W. Wyatt, vice-president; Dudley C. Hasbrouck, secretary and treasurer; John W. Snowden, captain; Edward Tompkins, Beutenant.

Use the ankle in pedalling, particularly when

orders for twelve, and that as many more are being constructed by other well-known concerns. The thirty-footer races will certainly be popular and attract attention because the various clubs have already offered prizes to the successful boats. The first club runs of the season are scheduled for to-day, but it is doubtful if all of them will take place, as the roads are not in good condition. The cyclists hope for a change in the weather and good roads for next Sunday. The runs arranged for to-day are as follows: Dominick Wheelmen, to Yon-kers; Harlem Wheelmen, to City Island; Roseville Cycle Club, to Bergen Point; Tourist Cycle Club, to Ocean Side, Long Island, and the Triumph Wheelmen, to Coney Island.

HALL WINS THE CHAMPIONSHIP. HE DEFEATS PERKINS AT THE NEW YORK RAC-QUET AND TENNIS CLUB.

By defeating C. L. Perkins yesterday, V. G. Hall won the racquet club championship of the New-York Racquet and Tennis Club. Hall's victory cannot be said to have been a surprise, as he was cer-tainly in much better form than his opponent, and able to play a faster game. Perkins, however,

OF LLOYD PHOENIX'S NEW STEAM YACHT-

meeting last Thursday, and the fact that nothing

of Sir George Newnes to challenge for the Amer-

ica's Cup was a surprise to many here. Sir George

Yacht Club, but he has shown unusual interest in

yachting matters, and hints which were dropped

that he would make an effort to capture the Amer-

lea's trophy. "The Field," Lord Dunraven's organ, had nothing to say about Sir George when the report of his America's Cup ambition was first

spoken of, but now, since there seems to be a doubt about his intentions, "The Field" reiterates

its assertion of some time ago that no British

yachtsman will ever challenge again for the cup. This threat is not a new one. H. Maitland Kersey

said as much to a Tribune reporter some time ago. He said that to arrange a race for the America's Cup one must be more lawyer than yachtsman,

and that Englishmen did not fancy that kind of

But members of the New-York Yacht Club are

not downcast by the recent reports, and many of

yachtsman will come over next year and do battle

for the cup. It is believed that much will depend

It has already been stated that "she will give the Yankee shipbuilders something to think about." It is safe to say that nobody is afraid, and that I Lord Lonsdale, who is said to be the Kaiser's particular the boat, about bring her over here because the boat about bring her over here.

Although there will be no international racing

for large boats in the coming season, there will be no lack of amusement for the yachtsman. The

small yachts will have their innings, and the clubs

have arranged programmes which will give win-ners in all classes a chance to capture valuable prizes. In the international contest for half-raters about two hundred boats will take part. The Royal

St. Lawrence Club will be represented by George H. Duggin's fifteen-footer. J. Rogers Maxwell,

owner of the schooner Emerald, will be a com-

owner of the schooner Emeraid, will be a com-petitor for the honor of defending the Seawanhaka International Cup. He is having a half-rater built for that purpose, which will be 22 feet 6 inches over all, 14 feet 8 inches load water-line, and 4 feet 6 inches beam. The races at which the cup defender will be selected will take place June 22, 23 and 24.

The thirty-foot class will probably offer much

sport and a number of boats of that class are now being built. It is said that the Herreshoffs have

All arrangements have been completed for the

even among the line line like of the solution of the will probably sail in a few days. Mr. Phoenix will have as guests aboard the Intrepid Leon F. D'Oremieuix and Colonel J. Schuyler Crorby.

Vice-Commodore F. T. Adams has offered a hand-

some cup to be raced for by cats in the Atlantic Yacht Club races on June 6 and 13. A large num-ber of entries have been received and several boats are now being built to compete for the prize.

Among the large vessels the Detender, Juditee and Navahoe will have matters to themselves. Commodore Gould's Vigilant will not be in commission. In the schooner class the Emerald will have a strong competitor in the reconstructed Colonia. Then there will also be the new boats which have been built for H. W. Harris and J. D. Barrett.

The special racing half-rater sail yacht just fin-

ished by the Spaiding St. Lawrence Boat Company,

of Ogdensburg, N. Y., after the model of the Ethel-

wynn, is named the Two Step. This boat is an

exact duplicate of the famous cup-winner Ethel-wynn, as far as the model goes, but has improved

rig, centreboard and arrangements, Tobin bronze centreboard and rudder, aluminum bronze deck fit-

tings, hollow masts and spars, phosphor bronze rigging, etc. The mast is fitted with a new patent

rigging, etc. The mast is fitted with a new patent railway track, and the rigging generally is of the most approved pattern. The Two Step will be sailed in the coming trial races for the International Cup by Herbert Jennings, of Southport, Conn., her owner. The boat will be on exhibition all the coming week at the Sportsmen's Exposition at Madison Square Garden.

Although it was a foregone conclusion that

the window of her room, passed out on the kitchen roof, and, reaching a ladder against the side of the house, descended to the ground. She had fully dressed herself, and had even thrown a heavy cloak over her shoulders. The members of the family searched in every direction around the place without success. They were about to alarm the neighborhood, when the girl was seen to mount the ladder very quickly and reach the roof. She climbed on the roof and worked her way back to the window and thence back into her room. The rest of the family were afraid to wake her while she was climbing back, as they knew she would fail if awakened. After getting inside she undressed and went to bed. She was sound asleep when her mother went softly into her room. The windows of the room were them securely bolted, but she made no further attempt to get up until morning. She made no reference whatever to the occurrence, and seemed to have not the sightest recollection of anything during the night. She said she slept well. She was not told of her exploit by the family for obvious reasons. The child had been sick several weeks ago, which may account for the return of her disposition to walk in her sleep.

MILLIONS DUE HIS BROTHER FOR

varied and often antagonistic interests.

The formal claimant for the \$7,000,000 which Peru owes on this account is John C. Landreau, of himself is living in Lima, Peru, unless his death has occurred within a short time. It was in 1840 that he left his birthplace, Angouleme, France, in man. 'You can say that the managers are thoroughly satisfied and much gratified with the way the
show has turned out. The public has responded
splendidly, and the press has treated us most liberally. The members of the Cycle Club are also
well pleased. Many of them have taken a personal
interest, and have been here every night.
The following names were registered at the L.
A. W. Booth:
I. B. Potter, chief consul; W. S. Buil, secretarytreasures. then a young physician with a considerable knowlinterocearic canal first engaged his attention, and he studied the topography of Central America most exhaustively in search of the most advantageous of Darlen; the Atrato River should form part of he waterway and the rest should be dug to the Bay of Cupica. In 1848, Landreau sent an elaborate memorial to M. Bastide, the French Minister of Foreign Affairs, describing at length the advantages of his scheme and asking the aid of the French Government in carrying it out. A polite note of acknowledgment from M. Bastide closed this incident in Landreau's career. Many years later the use of the Atrato River in an interoceanic canal was urged by Commander Selfridge, U. S. N.

> he explored from end to end. He visited the most inaccessible regions and became thoroughly familiar with the natural resources. Gold, silver and coal mines he found in plenty, but at such remote distances from the centres of population that they were at the time of no practical value. But on the coast he came upon vast deposits of guano, the value of which was at once apparent to his scientific mind. These riches were to be had for the trans-

ment of his discovery, the news of it spread over the world. Whole fleets of vessels were engaged in the guano trade, their cargoes putting new life into European agriculture. At one time the number of ships in this traffic was about one thousand. Peru naturally reaped rich reward from this commerce. Business of all kinds quickened into greatest activity. Fine buildings were put up and costliest luxuries brought by the returning guano carriers found a ready sale. The wonderful

guano carriers found a ready sale. The wonderful Orayo Railroad and others were built, and Peru was in the heyday of prosperity.

Landreau lost none of his love of travel, adventure and research on account of this success. He continued his discoveries, expecting that under the old Spanish laws to him would come one-third of the value of the guano which was removed. But no payment was arranged at once, and so Landreau, in order to secure means for continuing his explorations, took his younger brother into partnership with him. John C. Landreau had gained a moderate fortune in Louisiana, and applied part of it to his brother's enterprises.

Finally, in 1862, Theophile Landreau began to

insist upon payment of the sums due him, sums which would have made of him a Croesus. But as the millions poured into the Peruvian treasury they had poured out again, and to pay Landreau's claim was out of the question. So a special contract was entered into with him, after much conferring, the Government refusing to come to terms until Landreau made known the situation of some new deposits of guano upon which he had come. It was formally agreed that a reyalty of 8 per cent of 10,000,000 tons of guano be given to him. There the affair has stood to this day, as far as the payment of any money is concerned. Successive governments refused to carry out the terms of the contract, until the war with Chili brought an overwhelming bankruptcy. Theophile Landreau lived poor and wretched in Lima, but his brother went actively to work to secure the intervention of his own Government, the United States. After a careful examination of the papers, Secretary Fish strongly indorsed the justice of the claim, and Secretaries Evarts and Blaine did the same. But the pleas of the United States Minister to Peru were always met with protestations of poverty.

Interest in the claim is revived by the knowledgethat payment of it might be made with 37,000,000 to be distributed by the International Court of Arbitration at Lausanne. This is about the present amount due Landreau. Under the terms of peace agreed on by Chili and Peru, 31,500,000 had accumulated in the Bank of England from the proceeds of Peruvian guano sold by Chili. Subsequently, England forced Chili to cede to English holders of Peruvian bonds this deposif and all Peruvian guano proceeds for eight years, making altogether 10,000,000, made to Peru by Dreyfus & Co., of Paris, for which the guano was said to have been a guarantee. England, Chill and France agreed to leave the distribution of the money to a tribunal consisting of three justices of the Federal Court of Switzerland. On account of the Provity of the Landreau claim, it is possible that the court will decide that it must be paid. tract was entered into with him, after much conferring, the Government refusing to come to terms

NO MONEY FOR LANDREAU.

SUICIDE FOLLOWED MURDER

NEMETTY KILLED HIS STEPDAUGHTER AND THEN HIMSELF.

Nemetty. The latter was the proprietor of a meat and four children occupied two rooms back of the store was used by the family as a sleeping apartment, while the room back of that answered the double purpose of kitchen and dining-room. It was in this room that the shooting took place.

There Lad been trouble between Nemetty and wife for some time past over the attentions which the man had been paying his wife's daughter. The girl had always repulsed the advances of her step-tather.

the man had been paying his wife's daughter. The girl had always repulsed the advances of her steplather.

About 8:45 o'clock yesterday morning neighbors were startled by four shots fired in rapid succession. Detectives Cooley and Carroll heard the shooting and hastened to the meat market in time to meet. Mrs. Nemetty as she ran from the place, crying that her husband had murdered her daughter. The detectives stopped the woman and went with her into the store and found that the door leading into the bedroom was locked. This they forced, and found Mary Nitkowsky lying on the kitchen floor near the door which leads into the backyard. Nemetty was sitting upright in another corner, still holding a smoking revolver and muttering to himself in Hungarlan. Immediately after the officers entered, the man fell over on his back and died.

There was a pathetic scene when the undertaker's men came to remove the body of the girl to the Morgue. Then the mother became frantic, and it was with great difficulty that she was quieted. This was accomplished only when the Coroner promised the woman that the body would be returned to her after the inquest.

The reserve forces of the Yonkers police were ordered out, and they had great difficulty in dispersing the people who thronged the street.

From evidence given by Letza Nemetty, the brother of the murderer, it was learned that the family had opened the meat market about three weeks ago, and that they had been dofing a thirding business. Mary Witkowsky was employed by one of the carpet mills in the town and had prepared to go to work as usual yesterday morning when her stepfather told her she must remain at home and obey his orders. This the girl refused to do, and when the man seized her by the arm she struggled to free herself.

Nemetty became enraged at this and drew his revolver. Placing the muzzle of the weapon close to the breast of his victim he pulled the trigger and the ball passed through the gir's heart, and caused her almost immediate death. Nemetty then turned the left

MARLBOROUGH.

American liner, New-York, accompanied by Frank C. Ives, the champion, who has just finished a suc-cessful starring tour in the large European cities. America to be the representative of France in the three international tournaments projected by Maurice Daly and to be held in this city, Chicago and Boston. Mr. Garnier now ranks as the best player in Europe, and he was selected as a competitor in

in Europe, and he was selected as a competitor in the tournaments because of his acknowledged superiority as a cue artist.

Mr. Daly announced yesterday that the tourney lists would be open for other entries until Saturday next, up to which time any player who is willing to deposit \$250 entrance fee may become a competitor for the \$5,000 in prize money. Jacob Schaefer has already entered as Chicago's representative, and there is a desire on the part of the projector that the ex-champion, George F. Slosson, may be prevailed upon to once more enter the professional ranks and become New-York's representative in the three tournaments, which are organized solely to benefit billiards and not to boom any particular individual or any personal interest.

but the exhibitors complained that the lights would dazzle the eyes of the visitors, and so it was de

cided not to introduce them. Bicycle cranks, realizing that yesterday was their last opportunity for at least a year to visit a ing numbers. The attendance during the afternoon was heavier than on any previous day, and larger even than on Friday, when the school-children

were present. Several of the exhibitors went to the manager of the show yesterday and said that they would

OLD-TIMERS.

gladly continue their exhibits for three days nex week. The managers, however, are thoroughly tired out after their week of hard work, and are

glad that the show is at an end. A number of the exhibitors procured souventr vest was gathered by many of the hunters who made rounds of the show in search of these mementos. There were many who came especially to take advantage of this opportunity, although they had been present during the previous nights of the week. The success of the enterprise has far exceeded the most sanguine expectations of its promoters, and has without doubt opened the way for a successful repetition in each year. Andrew Peters said to a Tribune reporter last night that. although the show was not designed as a money making scheme, it had been highly successful

"We were seriously handleapped in the begin ning," said Mr. Peters, "by the action of several of the most prominent bicycle manufacturers in taking booths, and some people went so far as to say that, in consequence of their action, the show would not prove a success. Every one knows what a mistake they made, and we are just as well satisfied now that they remained away."

The League of American Wheelmen had its

couts out hunting for applicants for the organization, and in twenty minutes one of these indi viduals succeeded in inducing four of the visitors to become members. One of the officers of the expected to have increased the membership o the organization by 200 recruits. The bands played the following selections: March, "La Coqueta"
Overture, "Romantic"
Waitz, "The Skatera"
Selection, "Falka"
Dance, "Polish National"
Medley, "Chinatows"
March, "Golden Trumpeta"
Selection, "Heart and Hand"
Waltz, "On the Beautiful Rhine"
March, "New-York Girl"

EVENING.

S. Hotchkiss, W. Tucker and Frank M. Freeman.
After playing a few holes, however, the women
and Messrs. Sands, Wheelock, Kerr, Miley and
Hotchkiss withdrew. E. Robbins Walker for the
second time won the trophy, with an allowance of
12 and a net result of 23. The scores of the other
players follow. In the afternoon an interesting "foursome" was played W. H. Sands and Paul T. Kimbali against Robert B. Kerr and Jasper Lynch. The Lakewood experts were not in their usual form, and were defeated by Sands and Kimbali two up, one to play.

ODD PERFORMANCE OF A SLEEP-WALKER.

From The Portland Oregonian.
